Title Method for Call Admission in Packet Voice System Using Statistical
Multiplexing and Dynamic Voice Encoding

ASSISTANT COMMISSIONER FOR PATENTS

BOX APPLICATION

WASHINGTON, D. C. 20231

SIR:

PRELIMINARY AMENDMENT FOR CONTINUED PROSECUTION
UNDER 37 C.F.R. 1.53(b)

This preliminary amendment is submitted with the continuing prosecution
application filed for the above-identified application.

In the Claims:

Current claim 1:

- 1 1. A method for use in communications, the method comprising the steps
2 of:
3 receiving an incoming call, the incoming call representing one of a
4 plurality of call types comprising voice calls, and non-voice calls that can use a
5 facility;
6 admitting the incoming call for using the facility as a function of the call
7 type of the incoming call; and
8 updating a count of a number of voice calls currently admitted, when the
9 [admitted incoming call is a voice call.
